FROM THE FOUNDER'S DESK

“ India and other South East Asian countries including Thailand, Philippines, Malaysia, Vietnam, Cambodia are already dealing with the 2nd & 3rd wave. We are confident that with others we will emerge stronger & more resilient from this crisis. Also to keep us meaningfully engaged, there is no better world than sports as US & UK have already opened up with great boxing happening across that side with great fight cards which made some massive buzz globally.

We are confident that with positive news coming from all sides we should be able to bring back Live Boxing for public in a couple of months time. For now we have our eyes locked for July-August 2021 which should atleast be a good month to host a closed door show with our newly introduced PPV concept. Marine Pro Boxing Promotions has joined hands with an Indian digital sports network with whom we will introduce a specially designed Application made for showcasing our fight contents & live PPV fight nights.

Until then we wish you & your loved ones the best of health 🍷
